Jennifer and Mike,

Attached is the RM 10.9 Removal Action Progress Report for March 2014.

This communication shall also serve as official notice that effective May 1, 2014 John Rolfe will replace me as the Project Coordinator for the RM 10.9 Removal Action. John has been assisting me since the beginning of this project, knows all the people and the challenges, and is prepared to see the project through to its completion with all field construction concluding in May and the Final Report due 90 days afterwards. If you have any questions about this, please call me, Bill Potter or Dr. Law.
